## Review

*I love this album. Clearly, Kamal understands that whale music needs no hype, no glitz – like the work of any great musician, it speaks far better for itself than any spin master could ever achieve.*

## Artist Bio

Renowned musician and producer Kamal is a thoroughly established New Age artist with a distinct style and sound who has more than a quarter of a million CD sales to his credit.

Trained as a classical guitarist, he expanded his studies into the worlds of jazz and rock until the early 80s when he began experimenting with synthesizers and sequencers. Drawing much of his inspiration from the environment, he frequently uses the natural sounds of the Earth and its many inhabitants as primary sounds and themes in his compositions and arrangements.

Kamal's New Earth releases, *Reiki Whale Dreaming*, *Reiki Whale Song* and *Quiet Earth* are prime examples of his keen sense of tonality and ability to meld the essential sounds of the Earth with man-made instruments and melodies.

A German native, Kamal now lives in Australia where he not only works on his own music, but also works as a sound engineer and producer. He was recently awarded the prestigious Dolphin Award for the Best New Age/Ambient Song for his "Enchanted World" from *Reiki Whale Song*.
